

WHAT CAN YOUR SUBCONSCIOUS HEAL DURING A QHHT® SESSION?

Source: www.qhhtofficial.com/about-us/

Dolores Cannon's Definition of the Subconscious

Not to be confused with conventional medical and psychological terminology, Dolores Cannon's use of the word *Subconscious* to describe her groundbreaking work with that part of the human consciousness that is hard to describe because it is above and beyond the conscious mind but also encompasses it. Dolores chose to use the word *Subconscious* to describe this hidden aspect of existence because it resides at a much deeper, all knowing level of us than our conscious mind, which we use in our everyday lives to do our work and engage in relationships with others.

QHHT® & Healing

Once the Subconscious (SC) has been contacted during a QHHT® session, the QHHT® Practitioner asks it to identify and explain the cause behind any problem, and then asks the SC if it is permissible and possible to heal the condition. If the SC agrees, healing is immediate, without discomfort, medication or surgery. In many cases, once the SC reveals the source of the ailment or psychological problem, a release occurs in the subject's body and mind, and the client is freed from their condition.

Many of Dolores Cannon's thousands of clients and subjects were healed in this seemingly miraculous manner and wrote to her over the years to thank her. That is why she began teaching QHHT® in 2002, to share it with others so that they could continue the practice and in turn help as many people as possible. In 2013, her Level 1 QHHT® Class became available online to learn anywhere and at any time. In all cases, before healing can occur, an individual must want to be healed. The healing also cannot interfere with the lessons of their present life or the contracts they made before incarnating. Our souls are eternal, and we come to Earth to grow and learn lessons through individual experiences. An example of a conflict in healing could be the Subconscious not agreeing to restore the sight of a blind person if that was one of the lessons they agreed to learn before incarnating in their present life.

The Subconscious also adheres to a literal approach regarding healing. If a subject is experiencing a condition that is the result of abuse or lack of care for their body, and the person has taken no action to correct this and has no desire to change, the Subconscious is aware. Its logic will dictate that there is no point in healing the condition if the subject is just going to resume abusing the body once it is healed.

Following are examples of the extraordinary results Dolores Cannon and her QHHT® Practitioners alike have experienced with clients and subjects during their sessions:

- Cancer – various types at various stages cleared
- Cartilage – reconstruction between joints
- HIV – cleared and eradicated
- Heart – healed with no surgery required
- Liver – fully functional regeneration and restoration
- Kidney – fully functional regeneration and restoration
- Wounds – regeneration with no scarring
- Migraines –root causes explained and removed
- Vision – 20/20 eyesight restored with no need for corrective vision
- Diabetes – causes explained and cleared
- Intestines – conditions cleared
- Back – middle and lower area problems cleared
- Neck/Shoulder – pain identified and causes cleared
- Lungs – problems identified and cleared
- Skin – problems identified and cleared

Everything is possible with Dolores Cannon's proven method of hypnosis: QHHT®.
